24" CLASSIC RANGE

MODEL: ATC2DF

The AGA Classic 24" is our smallest AGA model, perfectly suited for city apartments, kitchens with limited space, or homes requiring a second range for an entertainment space or an in-law suite. Made and manufactured in Britain, the AGA Classic 24" is everything you would expect from an AGA, just wrapped in a smaller package.

OVERVIEW

At 24" wide, the AGA Classic 24" model is great for small spaces. The ovens cook using radiant heat for great results. Plus, you can have that lovely, cozy AGA warmth in the kitchen whenever you want it.

The two semi-rapid burners are especially suited for use with small pans, perfect for gentle simmering or poaching. The push-to-turn control knobs have both a high and low setting, the enameled cast-iron grates aide in proper heat distribution, and the vitreous enamel surface is easy to clean. Independent electric heating elements embedded in each cast-iron oven allow each oven to operate separately and independent from each other. Like all AGA Classic ranges, the cast iron offers radiant, gentle heat to lock in moisture and flavor while keeping the texture and integrity of the food intact. Best of all, the ovens of the 24" can be turned off unlike the traditional AGA range.

SPECIFICATIONS

- Product Dimensions: 35 7/8" H x 23 5/8" W x 24 1/2" D
- Shipping weight (lbs): 517 lbs (includes range, crate & pallet)

WARRANTY

- 1 Year Warranty for parts and labor, subsequent 4 years - parts only

24" CLASSIC RANGE

FEATURES

- Cast iron offers radiant, gentle heat to lock in moisture and flavor while keeping the texture and integrity of the food intact
- Two Large Capacity Multi-Function Cast Iron Ovens:
 - Roasting oven (approx. 425°F-475°F)
 - Baking oven (approx. 325°F-375°F)
 - Slow Cook oven (approx. 225°F-255°F)
- Independent electric heating elements embedded in each cast iron oven allow each oven to operate separately and independent from each other
- Four natural gas burners with an LP Conversion Kit included
- Continuous cast iron grates give pan stability, better heat distribution and ease of use
- One knob controls the multi-function flexibility of the ovens while each gas burner has an individual control knob with a high and low flame setting
- Push-to-Turn control knobs for safety
- Ovens can be turned off and are not required to be on all the time like the traditional AGA cooker
- Ovens take under an hour to reach full temperature

CAST IRON BENEFITS

Acclaimed as one of the most perfect mediums for great cooking because it retains heat well, has even heat distribution and radiates a gentle heat aiding food in flavor retention and succulence.

Cast iron cooking means ease of cleaning because oven splashes and spills are carbonized and simply require wiping out. An AGA also means fewer intrusive cooking smells.

A large proportion of each cast iron AGA has been made from recycled material.
